

Texas Invasive Plant and Pest Council
(TX-IPPC)
Tentative Name

STATISTICS:

Website: www.texasinvasives.org

Original Meeting: November 14, 2007

Membership: 96 founding members

Organizational Structure: There is a list committee with nine members and a steering committee with eight members.

Synopsis: The Texas Invasive Plant and Pest Council was formed on November 14, 2007 at the second Texas Invasive Plant Conference at Lady Bird Johnson Wildflower Center, Austin, TX. There were 96 founding members. The council currently has a Steering committee with 8 members whose purpose is to develop the organization's bylaws, work on organizational structure, and organize a general election for officers, and a List committee with 9 members, established to develop a non-regulatory plant list using Cal-IPC criteria. The council is still in the developmental stage.
